

*I made a*  
**KNIFE!**

# THE IMPERIAL PRIDE

**JAPANESE KIRIDASHI**

**CHISEL GRIND**

NOTES: The kiridashi does not traditionally have a secondary bevel near the cutting edge, rather, it's a "zero edge grind".

KNIFE FACT #54: There was a dagger used specifically for finishing off wounded knights. It's called the misericorde, Latin for mercy.
