

I made a
KNIFE!

THE LIBERATOR

CLIP POINT	SABRE GRIND
<p>NOTES: lots of weight in the belly and front of the blade make this knife ideal for chopping.</p> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>	

KNIFE FACT #477: Obsidian (magma rock) was used to make blades in the Stone Age and is now being used in modern surgery because it is sharper than metal.
